

# Make a nest

 Getting creative

 30 mins – 1 hour

## What to do

- Make a nest for a bird or another animal using only natural materials. Think about what the animal needs.
- Where will you build it?
- What materials will you use?
- How will you make it comfortable for them?

## Things to think about

- Do you think the animal will like its nest? Why?
- Think about the nests that other animals make and how well they make them. Aren't other animals amazing?
