

Annfield Plain Infant School, Stanley DH9 7UY

We love our school garden and going to after school gardening club.

Our first ever apple on the apple tree!

We didn't have many plants or flowers so we used our pupil voice and wrote letters to local garden centres to ask for donations. They were so generous!

Litter Picking around our village

We made our
village cleaner
so we can enjoy
it more. Eliza

If we leave litter, it
can get blown into
the sea or animals
could get stuck
inside plastic
bottles. Lacey

Making friends with minibeasts!

These fruit bushes need lots of water!

We looked at our lovely colourful garden!

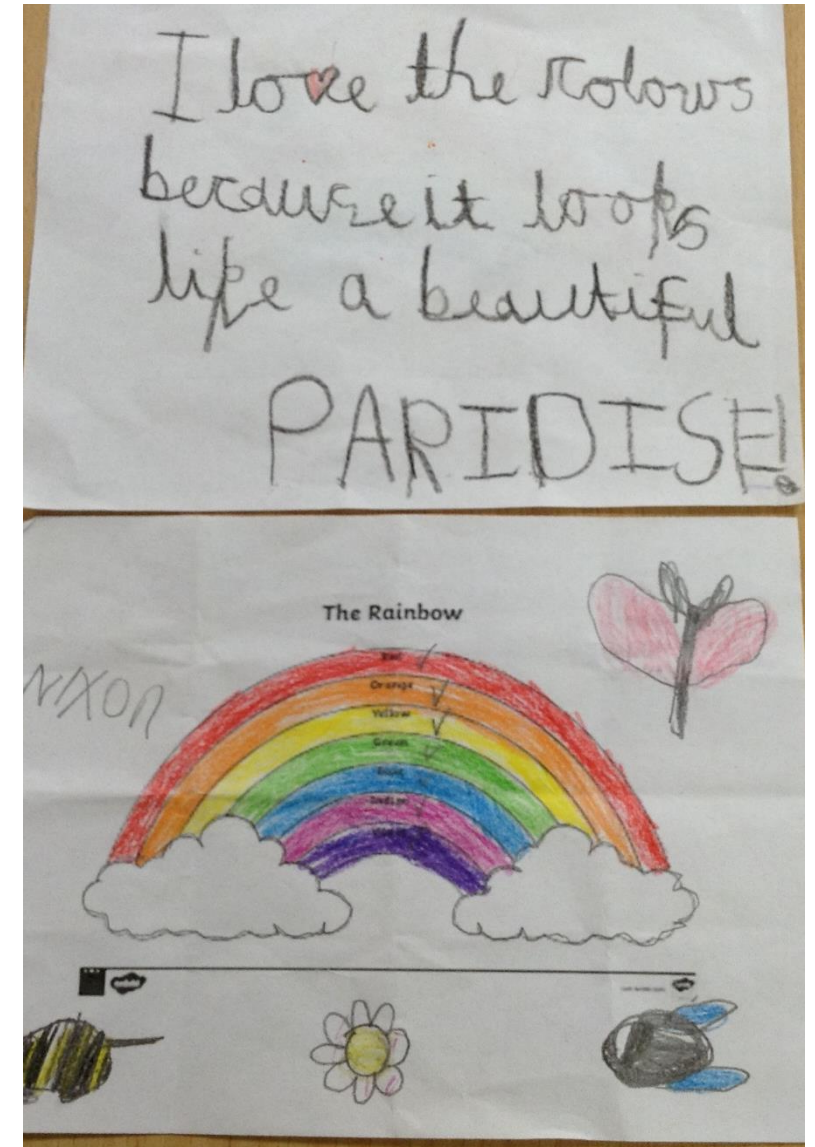

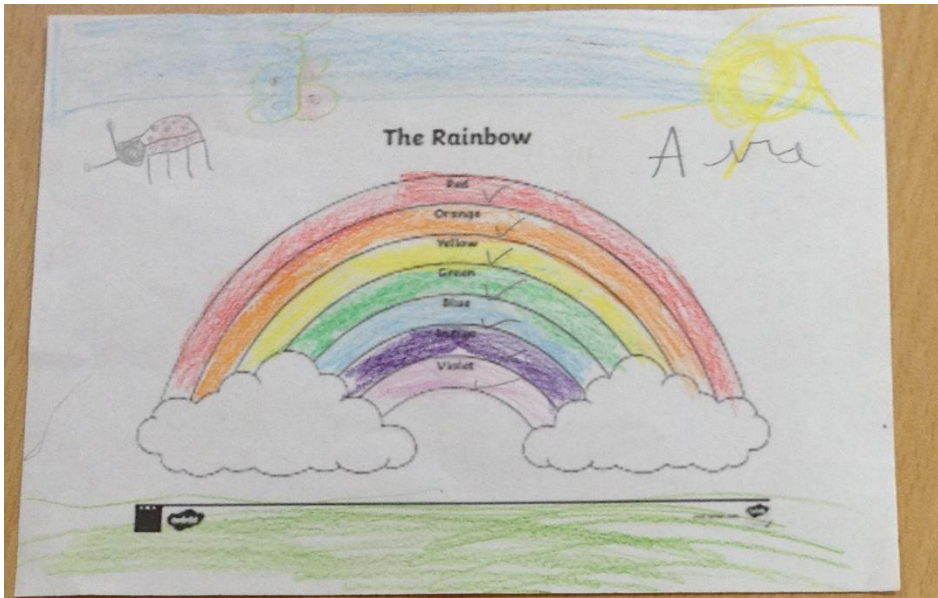

It feels calm and relaxing in the garden. It's important to look after nature.

Grace

I like rolling down the hill.

Adam

I love the outside
because I can play
with my friends.
I love the coolers
because it make
me happy.

We feel good when we are outside. My
stresses and worries go away! Tilly

We love our trees!

Identifying trees in our school grounds.

Enjoying a quiet moment in autumn term!

We even contacted a local gardening company who agreed to create a path through the woodland area, free of charge! Thank you to Mark and his team at MB Driveways.
